JAN. 10**

Monsters meet Munchkins!

"I think we're in Kansas, Dorothy"

'How to Make a Monster - the art and technology of animatronics' is now showing at Exploration Place, Wichita, Kansas. With a fantastic program of Halloween, educational and social activities planned it's going to be loads of fun - Oh my! www.exploration.org

#1 again - Muzeo, Anaheim

In a city that knows film How to Make a Monster again broke attendance records as visitors flocked to see the 'behind the scenes' nuts and bolts of creature making.

Europe Tour starts Spring 2011

Don't miss the opportunity to host this fantastic exhibition that explores the skills and processes involved in bringing creatures from the written page to the silver screen. Engage audiences of all ages through their leisure, hobby, school and work activities with creative writing, drawing, design, sculpture, engineering, electronics, performance & computer effects.

Featuring the work of Visual Effects Academy Award winner for 'Babe', John Cox.

"KWCH (CBS affiliate) will be at EP to do a walk-thru of the Monsters exhibit (first-ever that they have come out here)!", Christina Bluml, Communications Manager, Exploration Place.

Great rental savings available!

To book Monsters! contact: julie@johncox.net

US Military Robotics Engineer, Derek Scherer, flew in from Maryland to meet John Cox & crew & to check out the exhibition.
