HOW TO MAKE A MONSTER

The art and technology of animatronics

World premiere at Queensland Museum a huge success!

'How to Make a Monster - the art and technology of animatronics' has premiered at Queensland Museum South Bank. Showing from 23 December 2004 to 25 April 2005 the exhibition has proven popular with people of all ages.

"Contemporary exhibitions such as How to Make a Monster at Queensland Museum South Bank are introducing a new audience to the unique world of museums," said Director of the Queensland Museum Dr Ian Galloway.

"Indeed, in the case of the Sciencentre and the blockbuster exhibition, How to Make a Monster: the art and technology of animatronics we have exceeded predicted visitor numbers."

What to see & do?

'How to make a Monster' highlights the processes involved in designing and building animatronic creatures for the film industry. The exhibition features 36 exhibits, including eight interactive stations, as well as a theatre screen and seven other digital screen presentations, step by step process guide, posters and story board and design drawing cases. Visitors can be an animatronic puppeteer maneuvering the crocodile tail from the movie "Peter Pan", use x-ray eyes and see what makes 'Junior' move. They can check out Inspector Gadget's gadgets, touch "Pitch Back" alien guts, plus much more...
